## OUTPATIENT THERAPY

Our outpatient rehabilitation program focuses on helping our patients resume a productive and satisfying life. With skilled and experienced clinicians, including physical, occupational and speech therapists; we strive to improve people's ability to function and care for themselves again.

## THERAPY

Our physical therapists work with patients to help decrease pain and improve strength, endurance, balance and range of motion. The techniques they teach can be incorporated at home for continued improvement primarily where safe walking and transferring are concerned.

Occupational therapists work with patients to improve their coordination and fine motor activities, allowing them to return to their maximum level of independence in activities of daily living.

For individuals with communication or swallowing disorders; our speech therapists help facilitate function language, memory, speech and swallowing.

## GET BACK TO DOING THE THINGS YOU LOVE

- Participating in your favorite hobby
- Enjoying the activities of daily living

Treatment schedules are flexible but are designed for a steady progression towards the patient's goals.

## THREE PILLARS WELLNESS CONNECTION

Maintain the gains you have made in therapy through ongoing exercise and nutritional programs as well as support, education and other divisions of total wellness.

## TRANSPORTATION

Transportation to therapy sessions is available by prior arrangement.

## AWARD RECOGNITION

Our therapy team has received an Outstanding Program Performance award that recognizes exceptional program performance while demonstrating core values of the organization. This award is given to the top 12 programs in the country for RehabCare.
