

May 14, 2021

The Centers for Disease Control and Prevention (CDC) continues to update their guidance. It is important to note that this guidance applies to our regulated communities: Compass Point, Riverside Lodge, and the Masonic Center for Health and Rehab.

At this time, the latest guidance from May 13, 2021, does not apply to regulated Healthcare facilities.

As a reminder, people are considered fully vaccinated for COVID-19 when it's been ≥ 2 weeks after their second dose in a 2-dose series (Pfizer-BioNTech or Moderna), or ≥ 2 weeks after they have received a single-dose vaccine (Johnson and Johnson (J&J)/Janssen).

This can be complex in group settings, like our campus, so we are summarizing below for your specific area.

To keep our staff and residents safe the following represents current guidance for residents, families, and staff to follow while at Riverside Lodge and the Masonic Center for Health and Rehab.

We encourage all individuals, regardless of vaccination status, to wash their hands/sanitize regularly. Please DO NOT participate in anything on campus if you are not feeling well.

WHAT YOU NEED TO KNOW

Guidance may continue to change, so please visit our website at <https://www.threepillars.org/COVID-19.htm> for the latest information.

Below is a checklist of activities with the required prevention measures based on your vaccination status. This is not intended to cover every situation. If at any time you have any questions please contact Bruce Schlei at 262.965.7212 or [email](#).

PLEASE NOTE:

- **In indoor public spaces, all people must wear a mask at all times – employees, visitors, and vendors will also always wear a face shield/goggles when indicated.**
- We will verbally ask external visitors their vaccination status prior to a resident visit
- While some scenarios will no longer require masking or distancing, please always have the mask we provide you after screening with you in case the need arises to wear one.

DEFINITIONS

= **No mask needed, no social distancing**, screen, sign up for visits, and practice good hand hygiene.

= **All participants wear a mask, social distance**, screen, sign up for visits, and practice good hand hygiene.

	Go to public indoor places on outings (restaurants, shopping centers, theaters, museums).	

RESIDENT FAQs:

1. Does my family still need to screen in and sign up for visits? Yes, we ask all visitors to please continue to use our SignUp Genius site so we're aware of the visitors in the building at one time to ensure the core principles of infection prevention are maintained.
2. May I sit on the patio with my visitor? Yes, and masks are not required for small outdoor gatherings, regardless of vaccination status.
3. Can MCHR & RSL resume activities together; for example Church Service at MCHR? Yes. See above.
4. If an unvaccinated volunteer wants to work with residents, what would be the protocol for them and those attending their program? All must wear a mask and social distance.
5. Can residents have more than 2 visitors at a time if they are all vaccinated? Outdoors yes, but indoors no. With the current renovation we have limited space at this time.
