

## Deepening Our Impact 2021-2022 | HCC Renovation & RSL Addition

### SPONSORSHIP OPPORTUNITIES

At Three Pillars Senior Living Communities, we are remodeling our Health Care Center (HCC), and we’re also adding to our continuum of care by expanding Riverside Lodge (RSL), to include memory care and a higher-level assisted living community.

We remain focused on the lifechanging moments, events, and activities that will happen within our beautiful new indoor and outdoor spaces once they are complete—because how our residents spend their days is just as important as where they spend their days.

Buildings can be remodeled, and new wings can be added, but we are most passionate about offering the highest-quality programs and services, along with developing our amazing professional staff.

Our 99-year-old resident Annette Gohlke explains the magic of Three Pillars best when she says, “I’m not just living here, I’m thriving.” Our goal is to have all residents feel the same way. To that end, we are seeking generous donors to help us make our new spaces extra special. We have numerous sponsorship opportunities available that cover specific improvements as well as enrichments for our residents, families, staff, and programs.

Thank you for your consideration of our exciting options.
