What people are saying

"The Learn and Grow Horticulture program is a great "win-win" situation where everyone learns and creates beauty together in a communal effort!"

Barbara Gillette-Mills
Resident

**The seed in your
connection to
nature!**

[ThreePillars.org](https://www.threepillars.org)

This opportunity will allow a partnership in knowledge and helping hands to create not only memories, but beautiful plants. Let us be the seed in your connection with nature.

Your Nature Connection!

Learn and Grow is an interactive horticultural program focused on building relationships and sharing generational gardening information. This program is designed for families or individuals to learn a hands on approach to growing, understanding, and maintaining flowers, vegetables, herbs, and wild plants with our residents and community partners.
