

## ENVIRONMENTAL WELLNESS

# LEARN AND GROW

### HELP US GROW!

We have multiple program areas to meet your needs and schedule:

- Garden oversight
- Education and engagement
- Knowledge sharing

**If you're ready to explore nature, in an environment that supports you, contact us today!**

### WHO WE ARE!

Learn and Grow is an interactive horticultural program focused on building relationships and sharing generational gardening information. This program is designed for families or individuals to learn a hands on approach to growing, understanding, and maintaining flowers, vegetables, herbs, and wild plants with our residents and community partners.
